EXPERIENCE

Full Stack Developer

Niraltek Solutions *Mar 2022 - Present*

- Developed and maintained web applications using Angular and Node.js, leveraging their full potential for robust frontend and backend functionalities.
- Utilized MySQL databases for efficient storage and retrieval of application data, ensuring data integrity and scalability.
- Configured and managed NGINX server to efficiently handle HTTP requests and serve web content securely.
- Implemented real-time communication features using Socket.IO to enable seamless interaction between clients and servers in web applications.
- Designed and deployed IoT solutions using Arduino platform, integrating sensors and actuators to collect and process data for various applications.
- Leveraged DevsBot IoT platform to build and deploy scalable IoT solutions, managing devices and data streams effectively.
- Integrated smart energy meter solutions into IoT ecosystems, enabling real-time monitoring and optimization of energy consumption.
- Managed AWS EC2 instances to host and scale web applications, ensuring high availability and performance.
- Utilized Putty to securely access and manage Linux servers, facilitating smooth deployment and maintenance processes.
- Demonstrated proficiency in Linux environment, including shell scripting and system administration tasks, to optimize server performance and ensure smooth operations.

EDUCATION

BCA

Periyar EVR college *Aug 2018 - Apr 2021*
